CLARETI CONTROL SOLUTIONS

Automate, validate and reconcile your data, controls, and reporting

In the post-digital era, ensuring that your data is fit for purpose and integrity processes are robust is a critical challenge.

From data migration projects to regulatory reporting, control solutions cover the complete lifecycle of data across your organisation – and beyond.

Clareti Control solutions are your single, go-to point for automating all the process and data validation, reconciliation and reporting services you need.

Delivering

Exceptional throughput and performance, as proven by some of the world's largest banks.

Security and compliance with modern, cloud-native technology meeting all relevant standards.

Guaranteed service levels and 24/7/365 availability.

Trusted partnership with a proven partner invested in your success.

The Clareti Control difference

- + **Accelerated automation**, even when the largest and most complex data flows are involved.
- + **Advanced technology**: Machine learning and intelligent automation capabilities identify patterns in data, so your experts work on only the most complex, value-adding activity.
- + **Operational efficiency**: Eliminating gaps, duplicated tasks, and manual workarounds in spreadsheets and legacy systems.
- + **Faster onboarding**: Add new customers, controls, and connectivity in days rather than weeks or months.
- + **Volume and complexity**, handled effortlessly for all instrument classes and market participants.
- + Powerful, self-service UI and built-in analytics capabilities.

The only modern enterprise-grade business self-service platform for control of 'any and all' transaction data in financial markets.

GRESHAM TECHNOLOGIES / CLARETI CONTROL

Flexible deployment: Choose what's right for your business

Clareti Control solutions are available as standalone domain-specific deployments, or as part of Clareti applications packages that enable you to connect, reconcile and control your data – end to end. A fully managed service option takes the pain out of evolving data integrity and control requirements across your entire business.

Expert solutions across specialist domains

Clareti Control supports your business across four critical domains:

- + **transaction control:** Reconciliation and control of any type, size, or shape of data.
- + **regulatory control:** Regulatory reporting, control and connectivity delivering real-time, high quality, accurate data.
- + **cash control:** Out-of-the-box, self-service cash reconciliation.
- + **securities control:** Quick, simple automation and optimisation of your securities reconciliations.

Powered by the Clareti Platform

A modern, purpose-built, data integrity and control platform designed by industry experts, Clareti is built for a cloud-native environment by technology leaders with decades of industry experience. It brings data confidence to organisations around the world and has been successfully adopted across banking, investment and wealth management firms, insurance, and by complex multi-nationals.

Deployed in your cloud, their cloud, our cloud, or on-premise – we know how important flexibility is, it's always up to you.

200 million

transactions processed per day across all asset classes at a global, tier one bank.

99%

reduction in break count for a bank which switched to Clareti Control from a legacy solution.

£3 million

in operational savings delivered for a global investment bank.

80%

reduction in implementation fees at firms using Clareti technology to create new controls.
